Perovskite-Connect

In 2025, Perovskite-Info and Techblick launched **Perovskite Connect**, the world's first perovskite industry focused event series.

Flagship event in October, 2025, in Berlin, Germany.

An excellent speaker lineup that includes Microquanta, Oxford PV, Caelux, Perovskia, Power Roll, P3C, CEA Leti, Sofab Inks, PV-ART, Saule, Heliatek, Aerosolar, HZB.

A vibrant exhibition showcasing the latest industry updates and innovations.

Co-located with Europe's leading printed-electronics show, with strong ties to the perovskite industry, showcasing the latest printing technology, materials, equipment, applications, processes and innovations.

SNEAP PEEK AGENDA (Full agenda under development)

 Heliatek Evaporation-based production of flexible organic PVCs	 Oxford PV World's first mass produced tandem perovskite-silicon module
 AeroSolar Aerosol-assisted solvent treatment enables remarkable performance improvements in perovskite solar cells	 OET Energy Technologies TBC
 cea Challenges for upscaling Perovskite/Silicon tandem solar cells*	 Power Roll Ltd Combining microgrooves with a vacuum coating process to enable high efficiency flexible perovskite solar panels
 DELO Industrial Adhesives Conductive adhesives for perovskite solar panels	 Pulse Forge Photonic Curing of different layers in perovskite solar devices
 FOM Technologies Slot-die coating for solution-processes perovskite	 PV-ART 2-Terminal Monolithic Silicon/CdTe-Perovskite tandem solar cell with a conversion efficiency of 29.8%
 Fraunhofer ISE Long-term Stability of Perovskite Thin-Film Solar Cells	 SALD B.V A Paradigm Shift in Roll-to-Roll Spatial Atomic Layer Deposition for Perovskite Solar Cell Manufacture
 Halocell Energy Advancing Perovskite Photovoltaics: Halocell's Breakthroughs in Halide Engineering and Interface Passivation for Enhanced Stability and Efficiency	 Saule Technologies Bending the Future: Advances in Flexible Perovskite PV Technology
 HZB Helmholtz-Zentrum Berlin TBC	 sofab Sofab Inks Novel materials for next-generation perovskite solar panel production processes
 IPVF Institut Photovoltaïque d'Île-de-France (IPVF) TBC	 Solaires Entreprises Inc Perovskite-Based Solar Ink to enable high stability and high efficiency perovskites
 KIT Karlsruhe Institute of Technology New Materials for Metallization and Interconnection of Perovskite Cells: Low-Temperature Processing & Reduced Silver Consumption	 Solliance Pioneering Perovskite Scalability: Solliance's R2R Breakthroughs in Efficiency and Stability
 Microquanta Scaling Perovskite Innovation: Microquanta's Journey from Lab to GW-Scale Production	 Swift Solar Pushing the Boundaries of Solar Efficiency: Swift Solar's Journey in Perovskite Tandem Technology
 P3C Technology and Solutions Pvt Ltd Perovskite solar innovations for both urban and rural environments	 University of Rome Tor Vergata Graphene interfaces enables 12.6% efficiency on a 50 cm ² perovskite module
 Perovskia Solar Custom designed perovskite solar panels to harness both indoor and outdoor light	 Solar Renewable Gunter Erfurt The future of European solar manufacturing: niche only or mass production?

PROMOTE YOUR PEROVSKITE PRODUCTS AND SERVICES
